

## Recommended for ISO 9001:2008

Congratulations!!! UKAS Accredited Technical Centre has granted approval for transfer of ISO 9001:2008 registration of Gulf Equipment & Technology w.l.l.

ISO 9001:2008 is the revised International Standard, which focuses upon a process based approach of an organization's Quality Management System to objectively meet its customer needs.

This resulting certification recommendation by Bureau Veritas was based on auditing process. Certification denotes that GET demonstrated documented procedures in conformance with stringent standards for quality in all of its scope of activities.

Recertification of ISO registration is an important achievement for GET and is part of its commitment to quality and customer satisfaction.

Gulf Equipment & Technology is an ISO certified company since Year 2002.
