

GET SERVICE-WORKSHOP – NEW LOOK –

GET Service-Workshop facilitates all the functions that are vital to the new look (CUSTOMER SUPPORT) in order to meet customer needs for optimal operational efficiency.

These includes intensified portfolio of services such as supply of spare parts and field services. As well as overhauling of engines, transmissions, hydraulic equipment, electrical and automation systems etc. It also covers upgrades & conversion of equipment/ engines, annual maintenance-service agreements & training services.

GET operates fully owned workshop and employs specialized service professionals.
